

# Training Subscriptions

## Subscription Plans:

### Standard DDI Subscription

Self-Paced learning through a User-based or Corporate subscription

### Premium Training Subscription

User-based subscription that includes Self-Paced learning and a seat in a virtual Instructor-led course

## Duration:

1 year / 3 years

## Key benefits:

Access to EfficientIP self-paced training courses and digital content

Cloud-based, hands-on lab time

Ask the instructor sessions

Early access to new content

Path to Certification

Student dashboard

**Prerequisites:** None

## Summary

Training subscriptions give anywhere, anytime access to self-paced courses, video lectures, hands-on labs and certification exams. Students can enjoy a comprehensive curriculum for exploring and learning EfficientIP product features.

Two subscription plans are available:

### Standard DDI Subscription

This provides Self-Paced learning through a User-based or Corporate subscription, which offers reduced pricing for a larger audience. It gives a broad range of knowledge for students to understand DDI concepts and operate, configure and administer the SolidServer on a daily basis. The comprehensive curriculum will allow the student to explore new use cases, deepen their existing skill-sets, and help shape new ones.

### Premium Training Subscription

This subscription is a User-based subscription that includes the same services and content as the Standard Subscription, as well as content covering advanced product features. It also includes a seat to attend a virtual Instructor-led course selected from the EfficientIP open enrollment course catalog.

## Benefits of EfficientIP Training Subscriptions

**Anywhere, anytime access to digital learning content** organized in a learning path for exploring and learning EfficientIP product features

**On Demand self-paced courses** and workbook, including lab access that offer the same in depth instruction and content as the instructor-led courses.

**Ask the instructor sessions.** Upon completion of a self-paced course, the student can enroll to a Q&A session with a certified EfficientIP instructor.

**Self-paced lab activities.** Learners have access to additional lab time upon completion of a course

**Guaranteed vILT course enrollment.** The premium subscription includes 5 Flex credits equivalent to 1 (one) seat in any instructor-led virtual open enrollment class from the EfficientIP course catalog. Additional vILT seats in open enrollment or private classes can be purchased using flex credits.

**Flex training credits** allow purchase of vILT seats at discounted price within the scope of the subscriptions.

**Path to certification.** Complimentary exam vouchers are included in the subscription.

**Corporate Standard DDI Subscription** allows purchase of a user subscription as a bundle, for up to 20 users.

As one of the world's fastest growing DDI vendors, EfficientIP helps organizations drive business efficiency through agile, secure and reliable network infrastructures. Our unified management framework for DNS-DHCP-IPAM (DDI) and network configurations ensures end-to-end visibility, consistency control and advanced automation. Additionally, our unique 360° DNS security solution protects data confidentiality and application access from anywhere at any time. Companies rely on us to help control the risks and reduce the complexity of challenges they face with modern key IT initiatives such as cloud applications, virtualization, and mobility. Institutions across a variety of industries and government sectors worldwide rely on our offerings to assure business continuity, reduce operating costs and increase the management efficiency of their network and security teams.
